**Built  
to Help  
SACCOs  
Escape the Excel  
Spreadsheet Hassle**

 [saccosys.com/about](https://saccosys.com/about)

# Setting *the Context*

SaccoSys offers an approachable, all-in-one digital finance platform built to support sustainable growth of Savings and Credit Cooperative Organizations (SACCOs) and other member-based financial institutions.

Through a secure, cloud-based system, SaccoSys enables SACCOs to manage member onboarding process, savings, loans, repayments, reporting, SMS notifications, mobile and agency banking and real-time financial reports, all through one unified platform built for scale.

# Setting *the Context*

Today, **over 20 SACCOs**, including **Ruhunga Farmers SACCO**, **SanlamAllianz Staff SACCO**, **Bishop Stuart University Staff SACCO** and **Mbarara City Impact Fraternity SACCO**

(National Water & Sewerage Corporation Staff Owned SACCO), trust SaccoSys to digitize their daily SACCO operations and improve service delivery.

Founded to help SACCOs escape Excel spreadsheets, SaccoSys is headquartered in Uganda with a growing footprint across community and institutional SACCOs in the country.

# Beyond Spreadsheets:

## *Why SaccoSys exists*

It's evident that the expectations of SACCO members are changing rapidly and for the better. Members today seek more than traditional, office-bound services. They expect convenience with:

- 1 Mobile banking
- 2 Digital access to their accounts
- 3 Professional service standards similar to modern financial institutions such as banks

At SaccoSys, we believe SACCOs should gain real value from every technology investment. That's why SaccoSys exists to make it easy for SACCOs to run smoothly while delivering faster and more accessible services to members every day.

# Our Approach to Client Relationships: *What it means to us*

We are in the business of helping SACCOs build meaningful and **lasting relationships** with their members. SaccoSys software is designed specifically for SACCO managers, accountants & operational teams, with an intuitive interface and **interpretable reports** that make operations easy to manage.

## Honest

Customer relationships are built on **trust**. SaccoSys ensures **accuracy**, transparency and **accountability** at every touchpoint.

## All-inclusive

From member onboarding and savings to loans, **communication** and **reporting**, SaccoSys supports the full SACCO experience in **one system**.

## Lifelong

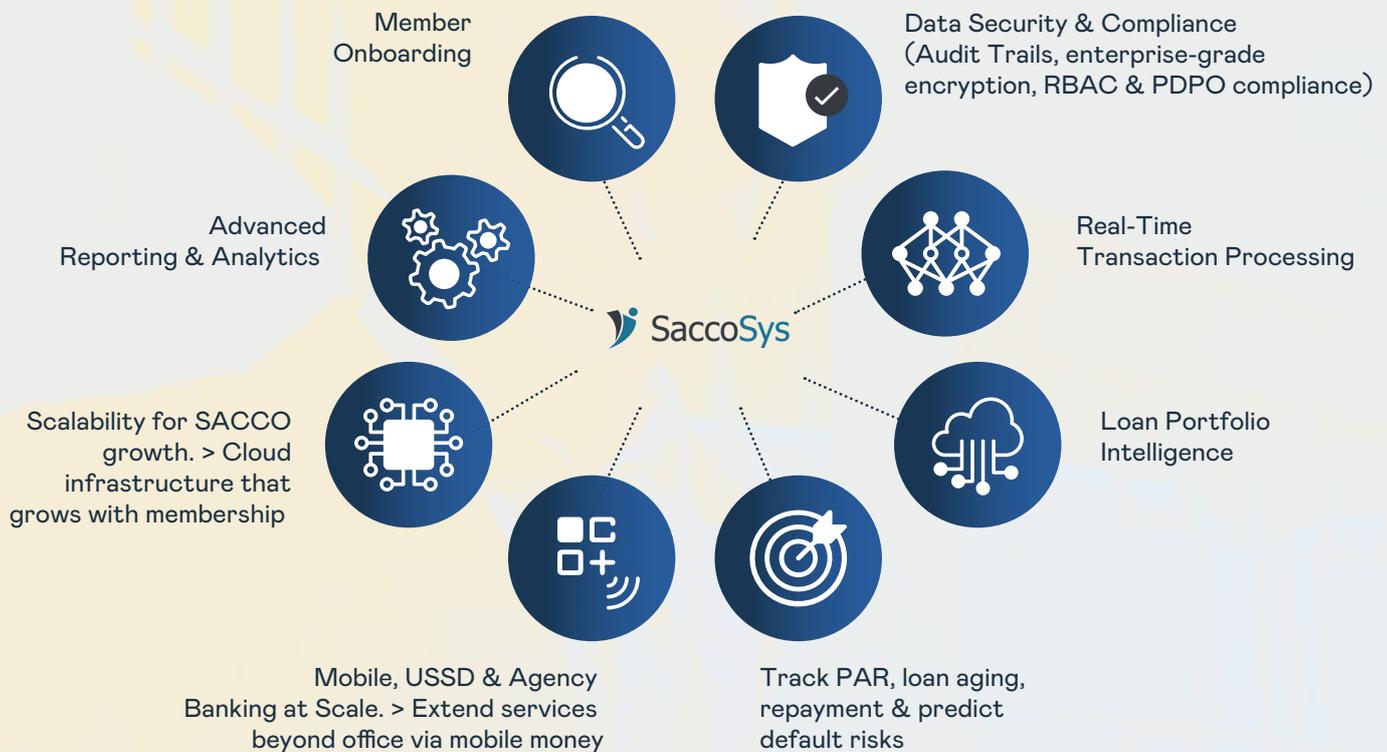

SaccoSys is built for long-term **growth**, helping financial institutions remain **stable, compliant** and relevant for generations.

# A different kind of SACCO *Banking* *Solution*

SaccoSys presents a **modern approach** to SACCO banking and lending through a unified cloud-based Software-as-a-Service (SaaS) platform. The software operates on a single, unified codebase that serves all SACCOs consistently and securely from anywhere.

As **Nyakaishiki Mercy**, Sales Consultant at SaccoSys, explains: “We support SACCOs through a **unified codebase** delivered globally as a cloud-based SaaS platform, ensuring reliability, scalability and continuous improvement across all institutions. This principle sits at the core of SaccoSys’ design”.

# Use Cases Cloud Software Addresses Within a **SMART SACCO**

SaccoSys enables SACCOs and member-based financial institutions to securely collect, structure and store financial data, from member onboarding and real-time transaction processing to loan portfolio management and mobile banking channels, supported by a scalable cloud infrastructure. This unified data foundation powers real-time analysis and seamless access across the **8 use cases/functional areas** highlighted above, making SACCOs smarter, more resilient and scalable.

Uganda

# SaccoSys Pricing *philosophy*

SaccoSys' pricing philosophy is flexible and transparent, uniquely designed for the unbanked and underbanked to remove the barriers that are often associated with enterprise banking software. Instead of expensive license fees, SaccoSys follows a simple principle “**Pay-As-You-Grow**”.

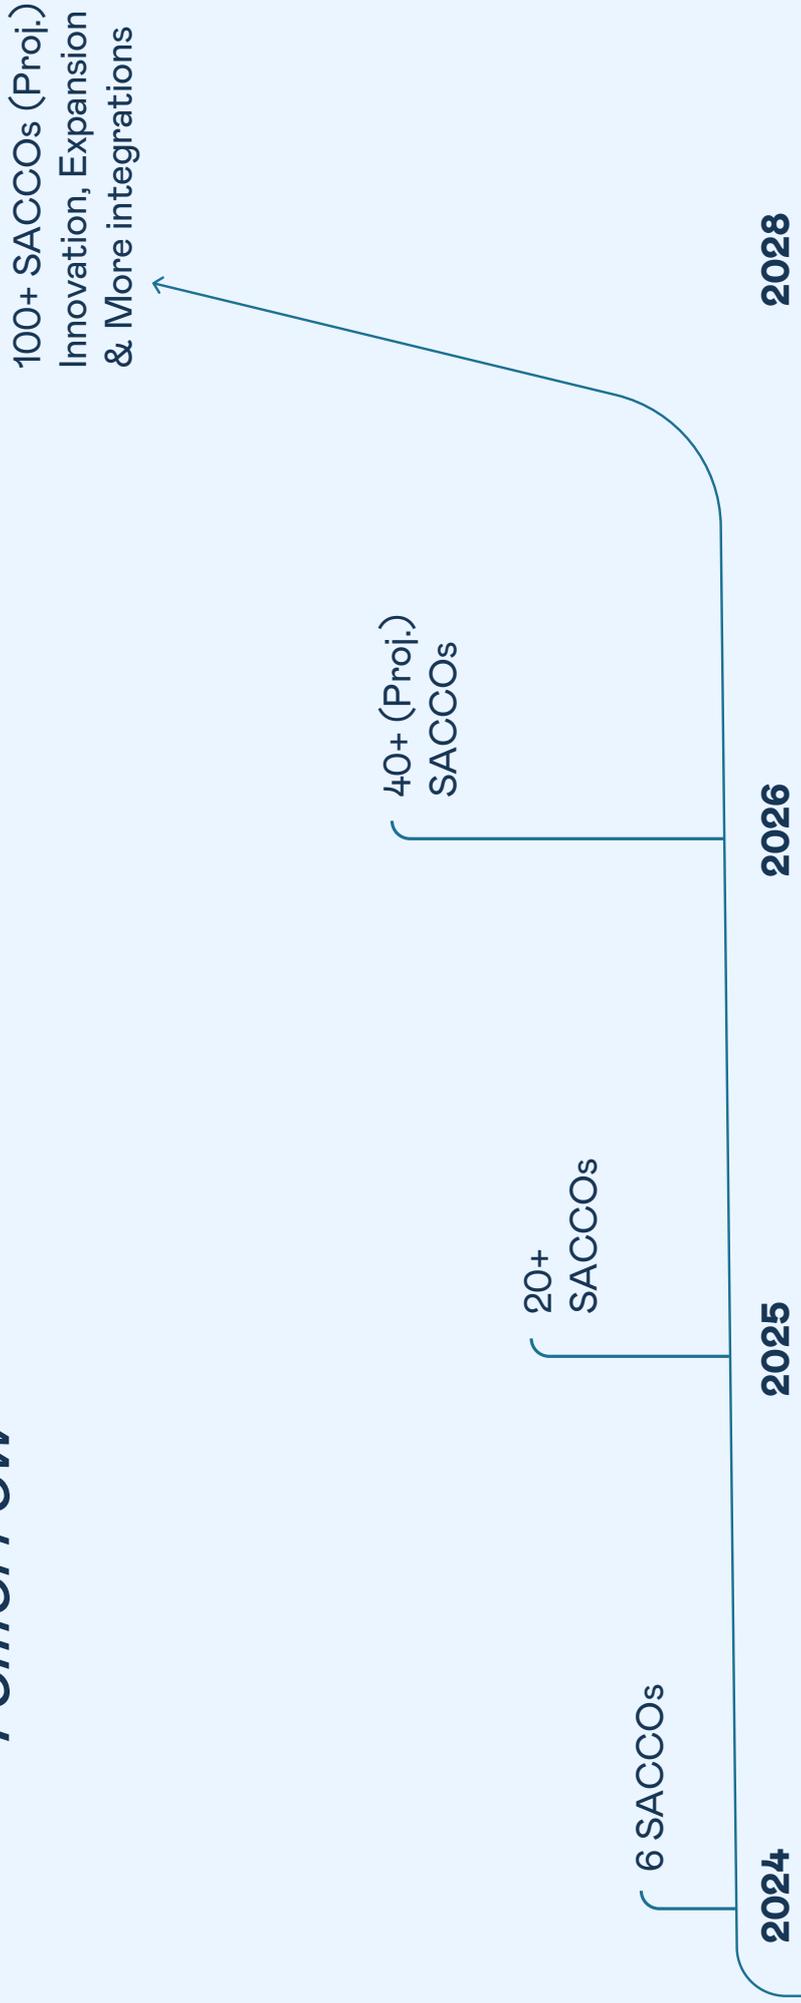

Our pay-as-you-grow pricing model ensures that charges apply only to **ACTIVE SACCO MEMBERS**. If there are **no active members**, there are **no subscription charges**.
